

# GreHack - Friday Nov. 15, 2013

|            |  |                                     |
|------------|--|-------------------------------------|
| 8am        |  | <i>Registration + Breakfast</i>     |
| 9am20      | Welcome to GreHack'13  |                                     |
| 9am30      | Tain't not enough to fuzz all the memory errors                                    |                                     |
| 10am15     | Specialization in the malware distribution ecosystem                               |                                     |
| 11am       |  | <i>Break</i>                        |
| 11am25     | The many flavours of binary analysis   |                                     |
| 12pm10     | Unraveling large scale geographical distribution of vulnerable DNS servers ...     |                                     |
| 12pm35     | Vulnerability Inheritance in Programmable Logic Controllers                        |                                     |
| 1pm        |  | <i>Lunch</i>                        |
| 2pm        | Amplification DDoS attacks with game servers                                       |                                     |
| 2pm25      | Pre-filtering Mobile Malware with Heuristic Techniques                             |                                     |
| 2pm50      | Developing a Grey Hat C2 and RAT for APT Security Training and Assessment          |                                     |
| 3pm15      | Detecting Privacy Leaks in the RATP App: how we proceeded and what we found        |                                     |
| 3pm45      |  | <i>Break</i>                        |
| 4pm15      | I know your MAC Address: Targeted tracking of individual using Wi-Fi               |                                     |
| 4pm45      | Statically Detecting Use After Free on Binary Code                                 |                                     |
| 5pm15      | Attacks using malicious devices: a way to protect yourself against physical access |                                     |
| 5pm40      | Rump sessions  |                                     |
| 6pm10      |  | <i>Conference ONLY - Cocktail #</i> |
| 7pm30      |  | <i>CTF: pizzas</i>                  |
| 8pm        |  | <i>CTF: preparation</i>             |
| 9pm -> 5am | GreHack CTF by SecurIMAG : p*wn me I'm famous v.2.0                                |                                     |
